Structural Mechanic (m/f/d)

(20260624-BQ-11)

📍 Standort: Hamburg 📄 Anstellungsart(en): Vollzeit 📅 Beschäftigungsbeginn: ab sofort

We Are Looking for You

Start your career with BQengineering – Job searching can be this easy!

We are looking, on behalf of our client, for a **Structural Mechanic (m/f/d)** within the framework of temporary employment (employee leasing) with the option of permanent hire.

Entwicklungspotential / Perspektiven

If suitable, you have the opportunity to be taken over by the customer company in the near future.

What Awaits You

- Manufacturing and assembly of riveted joints and assemblies on structural components according to construction documents, manufacturing instructions, and drawings
- Fabrication of components
- Assembly of components
- Joining, drilling, and riveting
- Application of surface protection
- Documentation of the assembly of components and assemblies

What You Bring

- Training as an Aircraft Structure Mechanic (m/f/d) or Industrial Mechanic (m/f/d) or a comparable qualification
- Initial professional experience as an Aircraft Structure Mechanic is desirable
- A valid medical examination corresponding to the activities to be performed
- Elevator operator license is an advantage
- Willingness to work early and late shifts. Flexibility for night shifts and weekends is a plus
- English B1/B2 is mandatory. French and German language skills are a plus

What We Offer

- A quick and uncomplicated start
- An attractive compensation model comparable to collectively agreed industry bonuses
- Job-related training and development opportunities
- Collective agreement bonuses, working time account, and social benefits
- Christmas and holiday bonus pay
- Work clothing provided
- Occupational health and safety support
- Long-term assignments with the option of permanent employment by our client companies
- Personal support and consultation
